

Little and Often Webinars

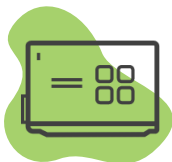

Join SMART's Professional Development Specialist and former teacher, Mark Hartwright for a 20 minutes session, every 2 weeks to learn how to get more out of your interactive technology, in particular SMART hardware and software.

Spring Term: March - April

Every other Thursday: **12:15 or 3:40pm, or on-demand**

Teaching without your laptop?

Still accessing your content.

SMART iQ is an android based device in the back of all new SMART Boards. It comes with an array of free software designed to save you time and start teaching right away.

This session is aimed at beginners and intermediates. March 10th

Adding Annotation Anywhere

Ink within any document

Use SMART Ink to add inking, annotation to any document, including Powerpoint, PDF and websites.

This session is aimed at beginners and intermediates. March 24th

SMART and Google integration

Drive, Classroom and Chromebooks

Lumio by SMART encourages active, collaborative and engaging lessons from within Google Drive or Classroom. Access your content directly from your SMART Board or Chrome book.

This session is aimed at Google users. April 7th
