

Free EdTech CPD for all Teachers  
Summer Term 2: June - July

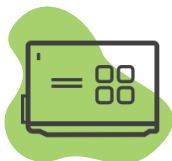

Every other Thursday

12:15 or 3:40pm, or on-demand

Join SMART's Professional Development Lead and former teacher, Mark Hartwright for a 20-minute session, every 2 weeks to learn how to get more out of your classroom tech.

## How to use the built-in Android unit to fit your natural workflow: 15th June

SMART iQ is the android-based device in the back of all new SMART Boards. It comes with an array of free software designed to save you time and start teaching right away.

- This session is aimed at beginners and intermediates using an MX or 6000S SMART Board

## Google Drive, Classroom directly on your SMART Board 29th June

Lumio by SMART encourages active, collaborative and engaging lessons from within Google Drive or Classroom. Access your content directly from your SMART Board or Chrome book.

This session is aimed all Google users.

## Live Q&A: Bring your questions! 13th July

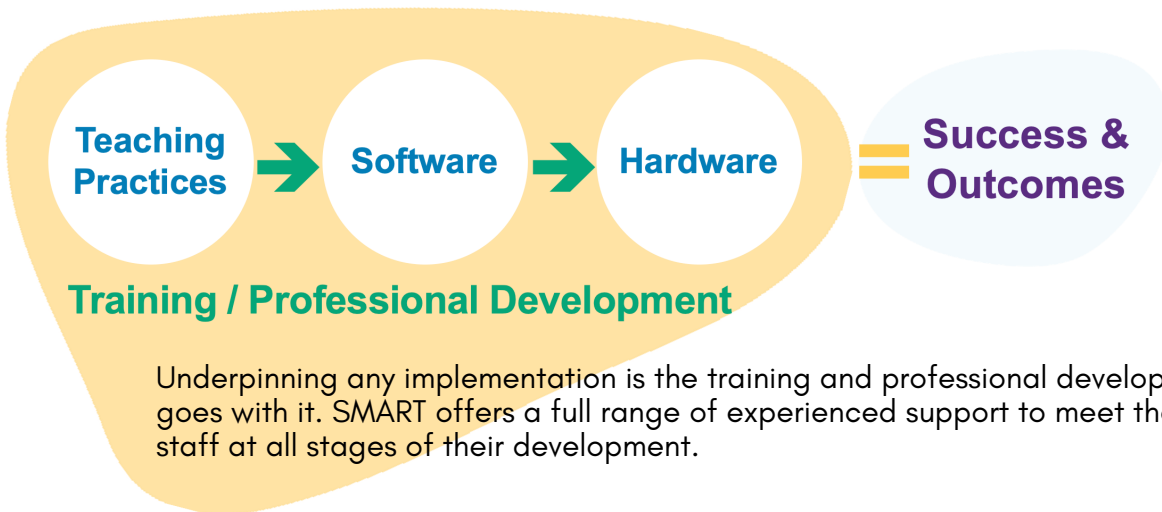

Before we all have a well-deserved break for summer, get those questions answered today! Ask anything, or share some great practice.

This session is aimed at everyone.

## Expert-Led Professional Learning

To addition to our complimentary CPD, SMART offers bespoke Expert-Led packages. This professional service begins with a consultation to assess your requirements, and from there, your implementation plan is created. Your personalised plan is then put into place, with designated times allowing for reflection. All sessions are available onsite or remotely.

Individual CPD packages might include:

"What are the possibilities with SMART?"; "How can SMART increase the outcomes in my subject/curriculum area"; train the trainer courses; drop-in sessions; learning walks; technical support; etc. These sessions can be delivered to any size group and include relevant follow-up via additional webinars/emails.
